SCOPE OF WORK

🏸 COMPLETE APPLICATION DEVELOPMENT FLOW
MULTI-ARENA BADMINTON MANAGEMENT SYSTEM

SYSTEM ARCHITECTURE OVERVIEW

Deployment Model

- Application hosted on VPS KVM - 4 Server
- Dedicated VPS (Not shared hosting)
- Separate environments:
  - Development
  - Testing
  - Production

Cloud Ownership & Responsibility

- VPS will be purchased in client's name
- Root access credentials handed over to client
- Data ownership: 100% client-owned
- Daily automated backup
- Weekly off-site backup
- SSL & firewall configured

MULTI-ARENA MANAGEMENT STRUCTURE

System Hierarchy:

- **Super Admin (Central Owner)**
  - Arena 1
  - Arena 2
  - Arena 3
  - Arena 4
  - Arena 5

Each Arena Will Have:

- Independent courts
- Independent pricing
- Independent slot structure
- Independent coaching batches
- Independent inventory
- Independent reports

Central dashboard will show:

- Consolidated revenue
- Arena-wise revenue
- Utilization comparison
- Profitability comparison

SCOPE OF WORK

🏸 COMPLETE APPLICATION DEVELOPMENT FLOW MULTI-ARENA BADMINTON MANAGEMENT SYSTEM

ROLE-BASED PANEL STRUCTURE

User Roles

1. Super Admin
2. Arena Admin
3. Reception Staff (Admin Panel role)
4. Coach
5. Customer
6. Accountant
7. Sponsorship Manager (Admin Panel)
8. Event Manager

Each role will have restricted permissions.
